Prefers Home With: Older Children

Spayed | Microchipped

This Shiba Inu/Chow Chow is very shy until she gets to know you. Kelly is spayed, up to date on shots, heart worm negative, and micro chipped. Once Kelly feels comfortable she starts her bonding. Because of her shyness, older kids would be recommended. In time Kelly will become a devoted family member. Patience is a necessity, and the new family will be well rewarded. Kelly at 3 1/2 is looking for her next chapter.
